**Question 3**

Read the pamphlet and answer the questions.

**Avoiding Road Accidents**

Road accidents are on the rise. Often, road accidents are the result of carelessness.

**Follow Road Safety Rules**

- Wear seatbelts while in a moving car, especially when the vehicle is moving fast. In case the car stops suddenly, you will not be thrown forward.
- Check both sides of the road carefully before crossing. The simple traffic rule of looking left, right and left again before crossing can save your life.
- Do not cross behind a stationary bus, lorry or van. When you are behind these big vehicles, you can't see oncoming vehicles. Neither will the driver of the moving vehicle see you in time.
- When riding bicycles, do so in single file at the side of the road. Do not cycle side by side. Keep to the side of the road at all times, especially when there is heavy traffic.
